

THE HONG KONG COLLEGE OF  
PATHOLOGISTS

SCIENTIA ILLUMINAT MEDICINAM

香港病理學專科學院

(Incorporated in Hong Kong with limited liability)

Dr. Wai-Kuen Ng, Chairman, Quality Assurance Committee, HKCPath  
c/o Division of Anatomical Pathology, Department of Pathology and Clinical Biochemistry,  
Queen Mary Hospital, The University of Hong Kong, 102 Pokfulam Road, Hong Kong  
Tel: 28554724, Fax: 28728098, E-mail: ngwk@yahoo.com

6<sup>th</sup> May, 2003

Dear Colleagues,

### **The Hong Kong College of Pathologists Quality Assurance Programmes for 2003**

On behalf of The Hong Kong College of Pathologists, we cordially invite you to join our Quality Assurance Programmes this year. As noted in the attached information sheets and application forms, quality assurance programmes for seven disciplines will be offered, including a new programme in Cytology. You may choose to enroll in any combinations or all of the seven disciplines under the scheme. A certificate of participation will be issued upon completion of each programme. Please fill in and return the application form(s), together with the relevant fee(s), to Dr. W.K. Luk, Secretary of Quality Assurance Committee, on or before 30<sup>th</sup> May, 2003 for further processing.

Thank you very much for your continual support.

Yours Sincerely,

Dr. W.K. Ng  
Chairman

Quality Assurance Committee  
The Hong Kong College of Pathologists

- P.S.**
- HKCPath-QAP information sheets and application forms are enclosed.
  - Certificates of Participation for 2002 Quality Assurance Programmes will be issued to participating laboratories in due course.

**THE HONG KONG COLLEGE OF PATHOLOGISTS  
INTERPRETIVE QUALITY ASSURANCE PROGRAMME**

**ANATOMICAL PATHOLOGY 2003**

**Introduction.** This QA program proceeding to its 10<sup>th</sup> year focuses on the interpretative skills. The participating institution can make use of these cases for internal QA of its staff members.

**Participation.** Participation is voluntary and open to all laboratories and individual pathologists. Individual pathologist who wants to subscribe to this program may do so; but individual subscription is limited by availability of materials, and acceptance is on a first-come-first-served basis.

**Confidentiality.** Participants use their own identity codes, known only to themselves, and thus the identity of individual participants will not be released to the QAP panel. The study materials will be retained by the participants. The scoring system and principles remain unchanged as in previous years.

**CME accreditation.** Pathologists from participating institutions can earn 2.5 CME points (QA) per circulation of 5-6 slides, and up to 7.5 CME points a year with 3 circulations of a total of 16 slides. The coordinator in each participating institution is requested to fill in a CME form recording the participation of individual pathologists for documentation.

**Frequency of circulation.** THREE circulations a year with a total of 16 slides or cases dispatched with a brief clinical history. Answers are expected to be returned within FOUR weeks through the College website <http://hkcpath.org>.

**Subscription and charges.** Please forward your application to **Dr. W.K. Luk**, Secretary, QA Committee, HKCPath, Department of Pathology, Tseung Kwan O Hospital, 2 Po Ning Lane, Hang Hau. Tel: 22080895, Fax: 21749519, E-mail: [lukwk@ha.org.hk](mailto:lukwk@ha.org.hk). A subscription fee of HK\$250 for 2003, payable to "The Hong Kong College of Pathologists", is charged per institution or individual. For additional information, please contact **Dr. P.K. Hui**, Tel: 27815136, Fax: 23886311 or E-mail: [pkhui@ha.org.hk](mailto:pkhui@ha.org.hk).

**THE HONG KONG COLLEGE OF PATHOLOGISTS  
INTERPRETIVE QUALITY ASSURANCE PROGRAMME**

**CHEMICAL PATHOLOGY 2003**

Interpretative skills of relevant clinical cases are some of the most crucial skills required in the practice of chemical pathology. Therefore, the college quality assurance programme will be designed to promote the development of this capability amongst the fellows/trainees/laboratory professionals working in the subscribing laboratories.

For practical reasons, the Chemical Pathology QAP will revert back to the circulation of data interpretation questions at regular intervals (about 3 circulations per year). The annual subscription fee is HK\$250 per year for an individual clinical laboratory. A certificate of participation will be awarded to individual laboratory after the last submission of answers.

**Subscription and charges.** The annual subscription fee is HK\$250 per year for each participating clinical laboratory. Please forward your application to **Dr. W.K. Luk**, Secretary, QA Committee, HKCPath, Department of Pathology, Tseung Kwan O Hospital, 2 Po Ning Lane, Hang Hau. Tel: 22080895, Fax: 21749519, E-mail: lukwk@ha.org.hk. For additional information, please contact **Dr. Michael Chan**, Tel: 26322326, Fax: 26365090 or E-mail: hmchan@med.cuhk.edu.hk.

**THE HONG KONG COLLEGE OF PATHOLOGISTS  
INTERPRETIVE QUALITY ASSURANCE PROGRAMME**

**CYTOPATHOLOGY 2003**

Starting from 2003, a Cytology QAP will be launched by The Hong Kong College of Pathologists, **in collaboration with The Hong Kong Society of Cytology**. It is a College's CME-accredited activity based on diagnostic evaluation of actual patient specimens on glass slides (smears / cytopspin preparations / liquid-based cytology preparations) through circulation. Each participating laboratory is going to read the same slide for a particular case. Topics including gynaecological, non-gynaecological and fine needle aspiration cytology will be covered. A Cytology QAP Working Group (Convenor: Dr. R.J. Collins), consisting of experienced cytopathologists and cytotechnologists, has been formed and is responsible for case selection, scoring and performance assessment. Normally, there are 4 rounds of slide circulation (6 – 8 cases per round) every year, making a total of 25 – 30 cases. Participation is voluntary and open to all laboratories on a “first-come-first-served” basis. Strict confidentiality will be observed in the performance assessment.

Upon receipt of the slide set, individual participating laboratory is required to go through the cases and return their opinions (mainly in form of multiple choice answers) to the QAP Organiser by fax or e-mail within a specified period (e.g. 1 – 2 weeks). After receiving the participant's feedback, the Organiser will then distribute the opinions of the QAP Working Group immediately, while slides are still in that participating laboratory for further checking. Afterward, the slide set will be circulated to other laboratories via express mail. Smooth running of this programme depends on rapid and timely return of the slides by the participating laboratories. The 4 rounds of slide circulation will be run simultaneously.

**Subscription and charges.** Please forward your application to **Dr. W.K. Luk**, Secretary, QA Committee, HKCPath, c/o Department of Pathology, Tseung Kwan O Hospital, 2 Po Ning Lane, Hang Hau. Tel: 22080895, Fax: 21749519, E-mail: lukwk@ha.org.hk. A subscription fee of HK\$600 (HK\$800 if outside Hong Kong) per year, payable to “The Hong Kong College of Pathologists”, is charged per participating laboratory. For additional information, please contact **Dr. W.K. Ng** (Cytology QAP Organiser) at Tel: 28554724, Fax: 28728098 or E-mail: ngwk@yahoo.com.

Details of the QAP will be followed on receipt of the application for subscription.

**THE HONG KONG COLLEGE OF PATHOLOGISTS  
INTERPRETIVE QUALITY ASSURANCE PROGRAMME**

**HAEMATOLOGY 2003**

The objective of the programme is data interpretation rather than sample analysis. Participants will interpret pictures and other laboratory results on the following haematology investigations:

1. Peripheral blood film
2. Bone marrow aspirate
3. Trepine bone marrow biopsy
4. Cytochemistry
5. Immunocytochemistry
6. Flow cytometry
7. Electron microscopy
8. Cytogenetics
9. Haemoglobin pattern analysis
10. Investigation of bleeding disorders
11. Investigation of thrombotic disorders

Participants will receive digitized images and other printed results. No glass slides will be sent. There will be 4 mailings per year.

**Subscription and charges.** Please forward your application to **Dr. W.K. Luk**, Secretary, QA Committee, HKCPath, Department of Pathology, Tseung Kwan O Hospital, 2 Po Ning Lane, Hang Hau. Tel: 22080895, Fax: 21749519, E-mail: lukwk@ha.org.hk. A subscription fee of HK\$500 per year, payable to “The Hong Kong College of Pathologists”, is charged per institution or individual. For additional information, please contact **Dr. Edmond Ma**, Tel: 28554570, Fax: 28177565 or E-mail: edmond@pathology.hku.hk.

**P.S.** The Hong Kong College of Pathologists and the Hong Kong Medical Technology Association is going to run a joint quality assurance programme in Haematology soon, which will supersede the current programme. The details of the joint programme will be announced soon.

**THE HONG KONG COLLEGE OF PATHOLOGISTS  
QUALITY ASSURANCE PROGRAMME**

**IMMUNOLOGY 2003**

The local quality assurance programme which had been running by Queen Mary Hospital Clinical Immunology Laboratory has been merged with The Hong Kong College of Pathologists Quality Assurance Programme last year, with the goal of raising the standard of immunology laboratory services in Hong Kong.

The Scheme is managed by a "Immunology QAP Committee". The Committee consists of medical and laboratory staff and is responsible for the formulation of programme objectives, operational procedures and results evaluation. Experts in the field will be invited to comment on the overall performance.

All laboratories (both private and public) in Hong Kong will be invited and encouraged to take part. Each participant will be given a laboratory code number. Assessment of individual performance will remain confidential and will not be released by the Scheme Organiser to any third party except the Chairman in certain special circumstances.

**Subscription and charges.** The subscription fee for the 2003-2004 programme is HK\$500 for less than five tests or HK\$1,000 for equal to or more than five tests for the period from 1<sup>st</sup> April, 2003 to 31<sup>st</sup> March, 2004. Please subscribe with the application forms provided by The Hong Kong College of Pathologists and forward your application to **Dr. W.K. Luk**, Secretary, QA Committee, HKCPath, Department of Pathology, Tseung Kwan O Hospital, 2 Po Ning Lane, Hang Hau. Tel: 22080895, Fax: 2174 9519 or E-mail: lukwk@ha.org.hk.

There will be four exercises per year, at three-monthly intervals. For further information, please contact **Ms. S.P. Cheung** or **Ms. Helen Wong**, Scheme Organisers of the Immunology QAP, at Tel: 2855 4144 or by Fax to: 2818 1104.

Details of the QAP will be followed on receipt of the application for subscription.

**THE HONG KONG COLLEGE OF PATHOLOGISTS  
QUALITY ASSURANCE PROGRAMME**

**MICROBIOLOGY 2003**

The "Joint Quality Assurance Programme in Clinical Microbiology" is a **joint programme of The Hong Kong College of Pathologists and the Hong Kong Medical Technology Association**. Only those laboratories employing at least one full time clinical microbiologist or pathologist are invited to participate. With each dispatch of simulated clinical specimens, participants will receive questions on clinical interpretation of results. Results of analytical findings and clinical interpretation will be scored together. Feedback will be provided together with authoritative comments and educational materials.

Laboratories interested in this Joint Programme should submit a separate application form as attached. A laboratory code will be assigned to each participant. The confidentiality of results will be strictly observed. No results from the programme will be made available to other laboratories or organizations in a form that could lead to identification of any individual laboratory.

There will tentatively be four dispatches of quality assurance materials. The annual subscription fee for year 2003 is HK\$1,000.

Those who had joined the programme in the last year will receive invoice and need not respond to this invitation.

**THE HONG KONG COLLEGE OF PATHOLOGISTS  
QUALITY ASSURANCE PROGRAMME**

**TRANSFUSION SEROLOGY AND PRACTICE 2003**

**jointly organised with  
Hong Kong Red Cross Blood Transfusion Service**

**A. Introduction**

The Hong Kong Red Cross Blood Transfusion Service (HKRCBTS) and The Hong Kong College of Pathologists are jointly organising a Transfusion Serology and Practice Quality Assurance Programme which aims at raising the standard of transfusion serology and practice in Hong Kong.

The programme is designed to provide participants an opportunity to compare their own performance against that of their peers, which would help them to evaluate different procedures, equipment, materials and personnel. Carefully selected and tested materials will be distributed regularly to the participants to work on and report. Individual, as well as consensus, results, in conjunction to relevant statistical analysis, will be returned afterwards.

**B. Organisation of the Scheme**

The Scheme is managed by a "Transfusion Serology and Practice QAP Committee". The Committee consists of medical and laboratory staff and is responsible for the formulation of programme objective, operation procedure and result evaluation. Experts in the field will be invited to comment on the overall performance.

**Transfusion Serology and Practice QAP Committee**

**Chairman:** Dr. W.C. Tsoi, HKRCBTS  
Telephone: 27101337

**Scheme Manager:** Mr. Tony K.F. Yan, HKRCBTS  
Telephone: 27101383, Fax: 27101385

**Secretary:** Mr. C.Y. Tong, HKRCBTS  
Telephone: 27101385

**Members of the Expert Panel**

Dr. C.K. Lin, Hong Kong Red Cross Blood Transfusion Service  
Dr. K.L. Au, Department of Pathology, Princess Margaret Hospital  
Dr. E. Chow, Department of Pathology, United Christian Hospital  
Dr. R. Chu, Department of Pathology, Pamela Youde Nethersole Eastern Hospital  
Dr. G. Cheng, Department of Medicine, Prince of Wales Hospital  
Dr. K.F. Wong, Department of Pathology, Queen Elizabeth Hospital

**C. Participation in the Scheme**

All hospital blood banks (both private and public) in Hong Kong are invited and encouraged to take part. Participation is absolutely voluntary. Participants will be

identified by a code number known only to the individual blood bank and the Scheme Manager. Assessment of individual performance will remain confidential and will not be released by the Scheme Manager to any third party except the Chairman in certain special circumstances.

#### **D. Subscription**

The subscription fee for the 2003-2004 programme is of HK\$800 for the period from 1<sup>st</sup> April, 2003 to 31<sup>st</sup> March, 2004. Please subscribe with the application forms provided by The Hong Kong College of Pathologists. For enquiry related to subscription, please direct to **Dr. W.K. Luk**, Microbiologist, TKOH (Tel: 22080895; Fax: 21749519; E-mail: lukwk@ha.org.hk).

#### **E. Frequency of exercise**

It is anticipated that there will be at least three exercises per year, at four-monthly interval.

#### **F. Dispatch of specimens**

Participants will be notified in advance of the date of dispatch of the exercise materials. Dispatch to individual hospital blood bank will be through the regular blood delivery. Self pick-up will be required if dispatch via regular blood delivery is not available.

#### **G. Exercise materials**

All materials of human origin were tested non-reactive for HBsAg, anti-HIV1+2, anti-HCV, anti-HTLV-I and syphilis in HKRCBTS. Nevertheless, all specimens received should still be regarded as potentially infectious and must be handled and discarded with appropriate safety precautions. Up to five 'patient' (red cells and sera) and ten 'donor' (red cells) samples may be dispatched in each exercise.

For further information, please contact **Mr. Tony K.F. Yan**, Scheme Manager of the Transfusion Serology and Practice QAP, at Tel: 27101383 or by Fax: 27101385.

Details of the QAP will be followed on receipt of the application for subscription.
